

# **BLENDCOR SUSTAINABILTY 2024**

## 1. GOAL

Carbon reduction by 50% by 2030

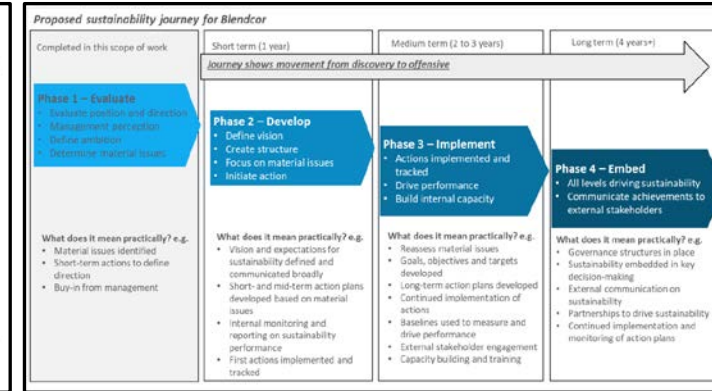

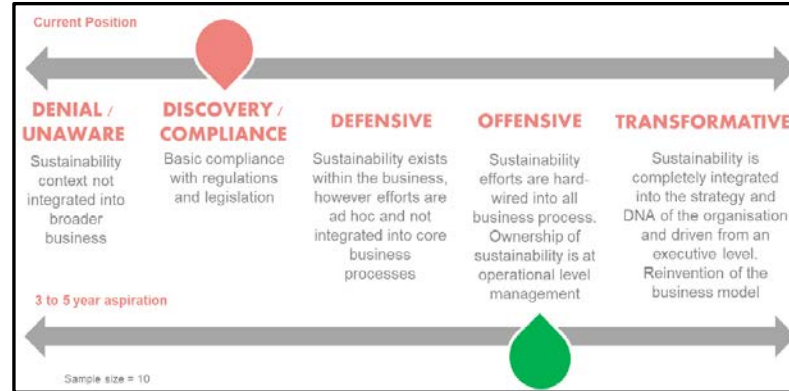

## 2. WHY is SUSTAINABILITY IMPORTANT FOR BLENDCOR

Sustainability fosters innovation, which opens new avenues for gaining a cost-competitive edge while fulfilling our environmental commitments. Doing the right thing!

## 3. SUSTAINABILITY PURPOSE

- The strategy will help Blendcor in determining its current sustainability position.
- It will also educate Blendcor on the importance of sustainability as a tool to drive higher profitability, efficiency, and competitiveness, rather than as a cost driver requiring large initial investments and long payback periods.
- It will also help Blendcor understand which sustainability innovations/initiatives can be implemented to improve its cost competitiveness.

## CARBON REDUCTION BY 50% BY 2030 – ROAD MAP – 2022 - 2030

## FOCUS AREAS

### CARBON REDUCTION PLAN BY 50% IN 2030

#### MEASUREMENT AND MONITORING

	Electricity
	Water
	Steam
	Air
	Condensate return

#### WASTE

	Recycling
	Reduction

#### ELECTRICITY

	REDUCTION AND OTHER ENERGY SOURCES
--	------------------------------------

### CARBON REDUCTION BY 50% IN 2030

#### FUEL

	HFO
	Forklift Gas

#### WATER

	Catchment
	Reduction

#### GOING GREEN

	Paperless
	Energy efficiency
	CSI
